18/2/2006

Recently the R.I.O Club launched a new fund, R.I.O Prestige Performance Fund Ltd., members must find it reassuring to see that our fund manager has out performed almost all world indices over the past six months.

R.I.O. Prestige Performance has enjoyed six consecutive gaining months since August 05. It is be interesting to note that this has been achieved though the winter period the low season for vehicle hire.

RIO has seen an increase in web traffic volume from the 200 qualified hits per week from March 05 to July 05 to its current figure of over 700 qualified hits per week on average since November 05 to date. Hire enquires are up 85% on last year. Bookings are up 20% on March last years figures. This all bodes well for RIO Prestige Performance Fund which looks set to see yet another consecutive gain this month.

Title	31/08/05	14/02/06	Return
