

RIO PROPERTY GROUP LIMITED

1 January 2024

MANAGER COMMENTS

RIO Property has closed the last quarter of 2023 in profit, up 0.96%. This is in stark comparison to the accounts benchmark return which fell 0.39% in the same period.

The outperformance reflects the benefit of our three decades of experience and underlines that RIO Property is well-versed in this market. RIO has had two previous property investments, each were five-year fixed-term products, and each delivered net gains of over 60% at the end of their term. More importantly, both had beaten their benchmark return (average House Price Index) in each year of the 10-year period. This is the third edition of RIO Property, it too has a fixed 5-year term, which is ongoing, and to date, it has also beaten its benchmark return every year since its launch in January 2020.

Had a member invested in the previous two RIO Property fixed term products, they would have seen a net return of 126.43%. This is why RIO Property has been, and still is, very popular with our membership.

INVESTMENT OBJECTIVE

The investment objective is to provide capital appreciation from a combination of renovation and development projects.

The projects are UK based and predominantly in prime city locations.

RIO has secured a select parcel of commercial properties that will immediately benefit from a change of use from commercial to residential. Importantly all properties within the portfolio are owned outright, there are no mortgage or loans utilised to purchase land or buildings and the redevelopment cost are also financed in cash terms.

The investment is to be structured as low risk and offers an attractive alternative to the normal low risk low return paradigm.

It should be noted that shares in RIO Property Group Limited are not available or promoted to members of the general public.

VOLATILITY & RISK (2 Years)

	RIO Property	UK Property
Annualised Volatility	3.37%	11.60%
Return for Period	13.41%	2.39%
Best Quarterly Return	2.86%	3.71%
Worst Quarterly Return	0.86%	-2.91%
Risk / Reward Ratio	11.54:1	0.83:1

The risk/reward calculation is a division of net profit (the reward) by the price of your maximum risk. Any investor should determine their acceptable risk, but it is always best to be more conservative with risk than aggressive with reward.
