MANAGER COMMENTS

RIO Property produced a gain of 1.28% in the second quarter of 2025. Since launch, this account has filed twenty-two consecutive gaining quarters, producing a net return of 51.71%.

The Market - Mortgage approvals for house purchases in the UK rose in May, as the housing market recovered quickly from the end of a tax break for homebuyers a month earlier. Net mortgage approvals rose by 2,400 to 63,000, the first monthly increase recorded since December. Approvals for remortgaging with a different lender also increased, climbing by 6,200 to 41,500 this is the highest monthly rise since February of last year, when approvals grew by 6,600, according to the latest money and credit statistics released by the Bank of England. May's uptick in mortgage approvals bucks the downward trend we've seen throughout the year so far. The gradual easing of interest rates could be helping to boost confidence and demand amongst mortgage borrowers. The cost of living remains high, but a drop in consumer borrowing in May signals that rising incomes are starting to feed through to the cost of day-to-day expenses. This is as the UK sterling continues to strengthen against the dollar, amidst the US tariff tension.

INVESTMENT OBJECTIVE

The investment objective is to provide capital appreciation from a combination of renovation and development projects.

The projects are UK based and predominantly in prime city locations.

RIO has secured a select parcel of commercial properties that will immediately benefit from a change of use from commercial to residential. Importantly all properties within the portfolio are owned outright, there are no mortgage or leases utilised to purchase land or buildings and the redevelopment cost are also financed in cash terms.

The investment is to be structured as low risk and offers an attractive alternative to the normal low risk low return paradigm.

It should be noted that shares in RIO Property Group Limited are not available or promoted to members of the general public.
